SHADOWMARK CCP

SHADOWMARK CATALYTIC CONVERTER PROTECTION

WHAT IS SHADOWMARK CCP?

ShadowMark CCP is a theft recovery catalytic converter labeling system available for any vehicle with one or more catalytic converter.

Expenses associated with the replacement of a stolen catalytic converter:

- Repair/replacement costs
- Increased insurance rates
- Out-of-pocket insurance deductibles

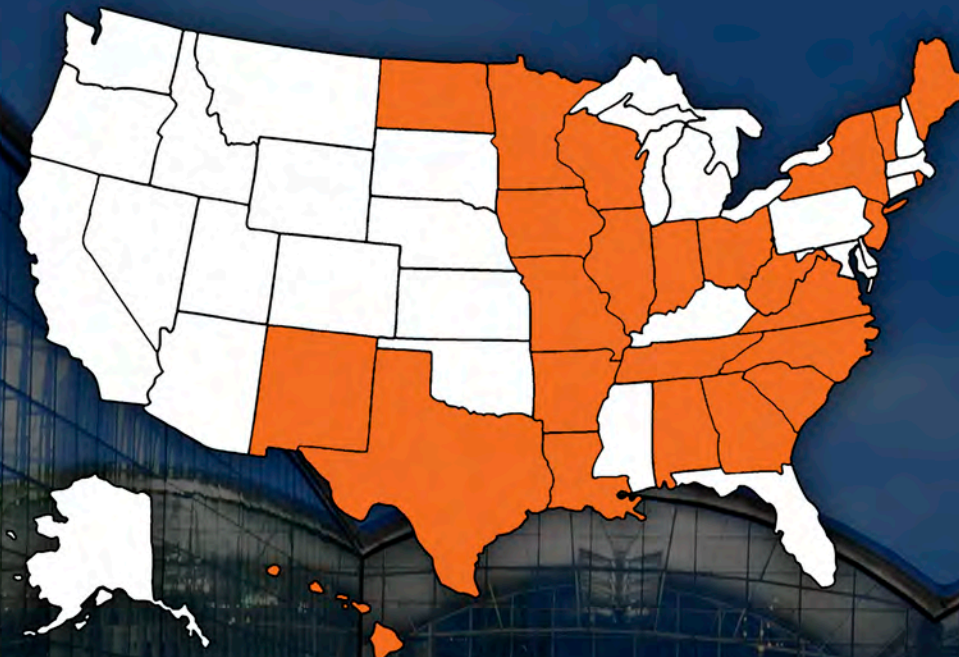

SHADOWMARK CCP FEATURES:

- May reduce your comprehensive vehicle insurance premium
- Fully transferable, adding resale value to your vehicle
- Can be applied to new, leased, and used vehicles

ResistAll[®], and SHADOWMARK[®] are registered trademarks of Cal-Tex Protective Coatings, Incorporated. SHADOWMARK[®] is a theft recovery product and is not a substitute or replacement for comprehensive vehicle insurance coverage. Refer to the limited product warranty for complete terms, conditions, limitations, and exclusions. © 2022 Cal-Tex Protective Coatings, Incorporated.

CATALYTIC CONVERTER THEFT INCREASES NATIONWIDE

In 2021, 26 states proposed bills to help curb catalytic converter theft. Of these states, 10 either enacted or firmed up existing legislation, including; AR, IN, MN, MO, NC, OR, SC, TN, TX, and WV. *

WHY ARE CATALYTIC CONVERTERS A TARGET FOR THEFT?

Catalytic converters use rhodium, palladium, and platinum to convert exhaust into less harmful gasses. The values of these precious metals in addition to times of crisis, limited resources, and disruption of the supply chain, keep the number of thefts high.

Catalytic converter theft claims increased dramatically between 2018 and 2020.
